11. Organization Chart

A large industrial refinery or petrochemical plant at night. The facility is illuminated by numerous yellow lights, creating a complex network of bright spots against the dark sky. Several tall, white smokestacks are visible, some with red and white horizontal bands. The background shows a deep blue and purple twilight sky with some wispy clouds. The overall scene conveys a sense of large-scale industrial activity.

# Company Purpose

To improve the efficiency, the performance and to reduce the impact on the environment of the industry in Saudi Arabia by delivering and installing quality products and innovative technologies, maintaining, servicing, revamping and upgrading machinery and industrial plants

# Core Values

## Passion Agility And Innovativeness

We are committed to delivering high quality products, services and innovative technologies that shall help and improve the communities and environment in the kingdom.

## Customer Focus

We are dedicated to satisfying customer needs by providing quality and honoring the commitment that we made to them.

## People Centredness Safety

We believe in the inherent worth of our employees and treat our team members, customers, partners and suppliers with mutual respect and sensitivity.

## Integrity

We accept responsibility for our actions, make and support business decisions through experience and good judgement.

KTS posses its workshop in Dammam where we have full facilities for steel structuring, pipe fabrication, machining and Gas Turbine auxiliaries repair.

# Our Clients

Some of the most prominent clients of KTS

- SEC
- MARAFIQ
- ARAMCO
- MAADEN
- SWCC
- SAHARA
- SAUDI PAPER COMPANY
- SADELM
- SALIM AL JOAIB & PARTNERS
- AL KAWARI
- WESCOSA
- SINOPEC
- SAUDI CEMENT FACTORY
- SCHNEIDER
- GE-ELECTRONICS
- SAUDI TRANSFORMER COMPANY
- MAKAMIN
- KING ABDUL AZIZ MILITARY CITY
- KING KHALED MILITARY CITY
- SNC Lavalin Saudi Arabia

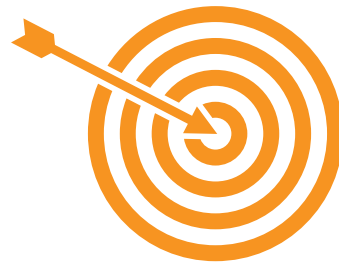

We are confident that our entire team will strive to provide their best effort to meet the required tasks asked to them. The management as well as all concerned staff, will take personal pleasure in following up with our customers' demands.

## Our Mission

- Become the engineering company most known in Saudi Arabia for searching, delivering and installing quality products and innovative technology contributing to make the local industry more efficient, competitive and environmentally friendly.
- Enhance our reputation as a company by providing outstanding service and aim for smooth commissioning and on time delivery of our projects.
- Value our suppliers and subcontractors as Partners.

# Certificate

## *Certificate of Registration*

This certificate has been awarded to

### **KAFU TECHNICAL SERVICES CO. LTD**

P.O Box 79553, PRINCE FAISAL BIN FAHAD STREET, AL-THURAYYA  
BUILDING, OFFICE NO.4, FOURTH FLOOR, AL-KHOBAR, Kingdom of  
Saudi Arabia

in recognition of the organization's Quality Management System which complies with

**ISO 9001:2008**

The scope of activities covered by this certificate is defined below

**Sales and Repair Services for Power Generation Equipment, Auxiliaries  
and Components. Contractor for Electro-Mechanical Field Services and  
Fabrication Works.**

Certificate Number:

37993/A/0001/UK/En

Issue No:

2

Date of Issue: (Original)

10 December 2009

Expiry Date:

18 January 2016

Date of Issue:

19 January 2013

Issued by:

*Ghassan Khawar*

On behalf of the Schemes Manager

This is a valid ISO 9001:2008 certificate. It is the property of the Registrar. It is not to be used for any other purpose. It is not to be used for any other purpose. It is not to be used for any other purpose.

Our accomplishments lie in  
maximum customer satisfaction

## Quality Policy

We at KAFOU fully understand that our accomplishments lie in maximum customer satisfaction which is achieved by consistently providing quality products and services in accordance with customers' needs and expectations.

Our commitment to quality is driven by the following guiding principles:

- Understand current and future customer needs and strive to exceed customer expectations.
- Identify and delivering innovation technologies and services that fulfill the markets needs
- Strictly adhere to any legal and regulatory requirements that apply to our services
- Strive for continual improvement of our services based on objectives settings and measurements.
- Continuous updating of every employee's skills and competencies and improving quality in his work function.

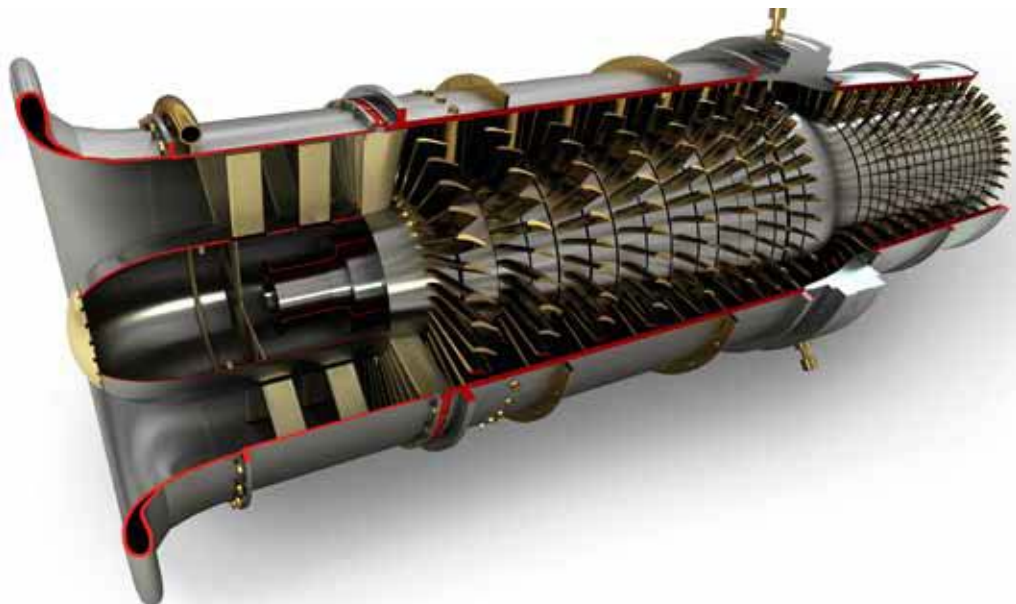

CEO  
KAFOU Technical Services

# Our Activities

- Gas turbine and generators
- Electro/mechanical engineering solution
- Fluid filtration system for all type of industry ( waste water, air, gas, oil)
- Protection systems study, analysis and implementation
- Spare parts supply

# Gas Turbines And Generators

15

Company Profile

Inspection of hot and cold gas path, bearings and other major components

Vibration analysis, balancing, aligning and start up

Repairs and replacement of

1. major parts/components:

- rotors
- blades
- vents
- combustion parts
- compressor diaphragms

2. expansion joints

Complete overhaul from flange to flange

Generators overhaul for rotor and stator, re-winding and complete life assessment

Relocation

## Electro/Mechanical Engineering Solution

Supply, erection, testing and commissioning of :

1. heat exchangers, condensers and heaters
2. on line turbine washing system
3. all type of air compressors and dryers

Design, pre fabrication, erection, testing and commissioning of piping systems

Installation, testing and commissioning of :

1. LV, MV, HV cables.
2. transformers, switchgears, panel boards, circuit breakers and MCC's

Calibration and testing of protective relays, UPS, battery banks

Instrumentation & control system inspection, modification and upgrades

## Fluid filtration system for all type of industry ( waste water, air, gas, oil)

Supply, erection, testing and commissioning of:

1. gas filtration system.
2. air/odour filtration system for industrial sector.
3. waste water treatment equipment.

Provide complete turn key projects for water desalination plants

Stand alone solution for sewage treatment

# Protection systems study, analysis and implementation

Supply, testing, calibrating of relays for:

1. all type of distribution systems
2. transformers and feeders

Power system study for:

1. load flow
2. short circuit
3. transient stability and protection coordination

Supply of complete integrated system for:

1. fire and hazardous gases detection / suppression
2. process surveillance

Thermoproof insulation blankets for sensitive components and instrumentation

Scanning for potential heat leakage, identifying of existence of hazardous areas, releasing full reporting with recommended remedies

Supply, installation, testing and commissioning of high quality thermoproof material for perfect heat insulation

KAFOU fully understands that our accomplishments lie in maximum customer satisfaction

## Spare parts supply

- OEM parts
- Full warranty
- Expedite delivery process for emergency parts
- 100% on time delivery as per our track record
- Competitive pricing
- Regional stock holding
- Parts repair, refurbishment and reconditioning

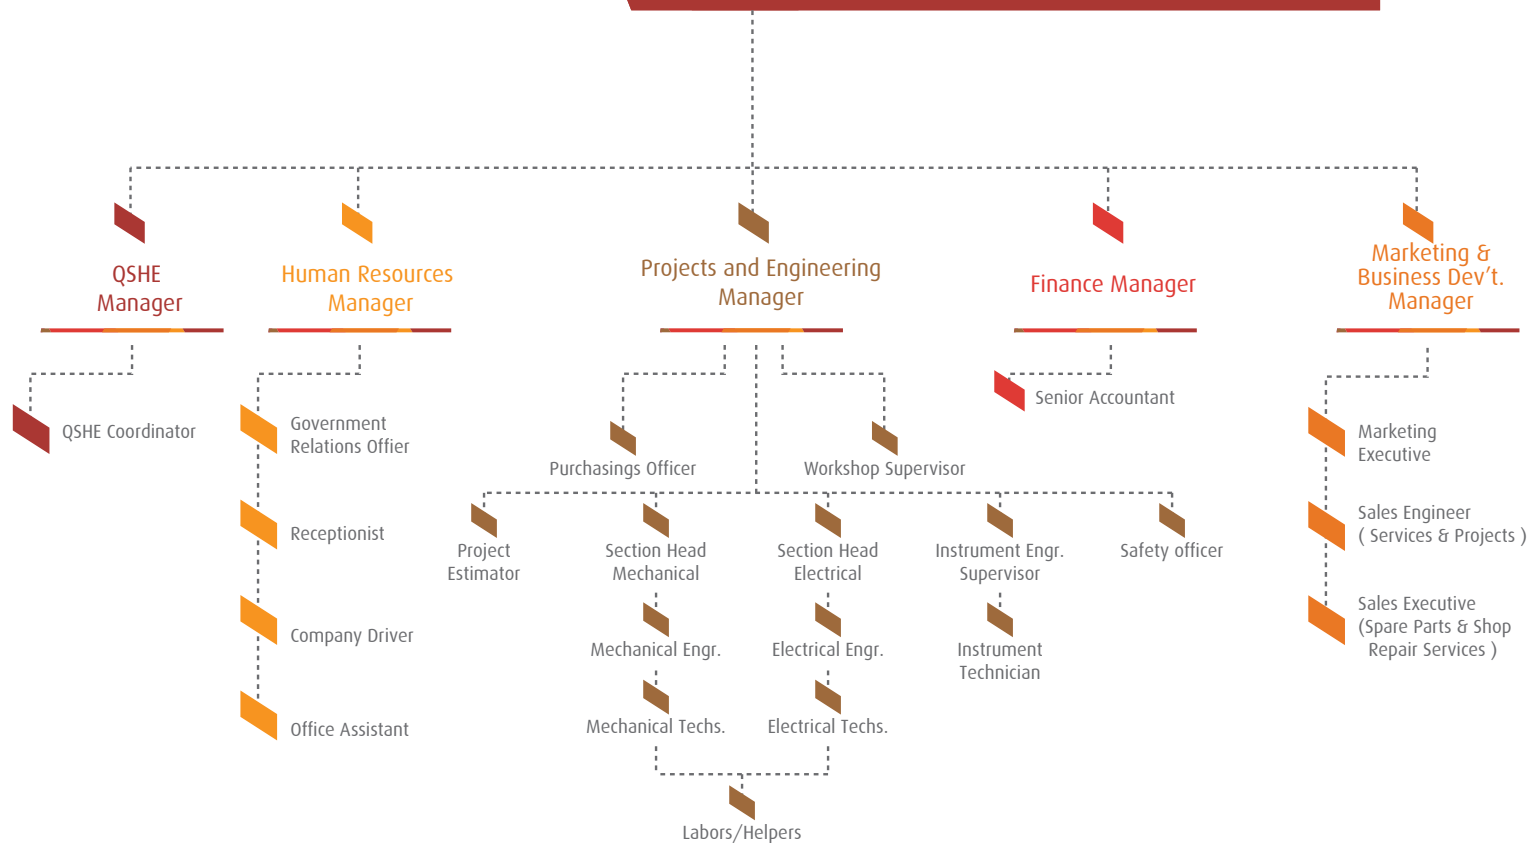

# Organization Chart

## General Manager

We are looking for a  
better tomorrow
